**NOW, THEREFORE, BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF WEST PALM BEACH, FLORIDA, that:**

**SECTION 1:** The City Commission of the City of West Palm Beach hereby makes the following findings of fact and conclusions of law:

1. Durham-Florida Properties, LLC, a Florida limited liability company and petitioner, submitted a Petition to establish the Briger Community Development District (the "District") pursuant to Chapter 190, *Florida Statutes*, as amended and supplemented, to the City of West Palm Beach on September 4, 2001 (the "Petition").
2. The property proposed to comprise the Briger Community Development District consists of 141 acres, more or less, located entirely within the boundaries of the City of West Palm Beach, Florida, is generally bounded on the west by Military Trail, on the east by the Saratoga Pointe Development, on the south by Shenandoah Drive and on the north by Cumberland Drive, and is identified on the map attached hereto as Exhibit A; and a metes and bounds description of the external boundaries of the proposed District are set forth in the legal description attached hereto as Exhibit B.
3. The City Commission of the City of West Palm Beach held a public hearing on the petition to establish the Hamal Community Development District on November 26, 2001.

4. The City has reviewed the Petition to establish the Briger Community Development District and found all the statements therein regarding the planning, zoning and public utilities factors to be true and correct.
5. Pursuant to the Petition, certain ordinances of the City limit the planned uses within the proposed District to residential single family, zero-lot line homes.
6. The establishment of the District is not inconsistent with any applicable element or portion of the City of West Palm Beach Comprehensive Plan.
7. The approximately 141 acres of the proposed Briger Community Development District is all contained within the Residential Planned Development Master Plan relating to such property.
8. The proposed District is of sufficient size, is sufficiently compact, and is sufficiently contiguous to be developable as one functional, interrelated community and as an independent special district.
9. The Briger Community Development District will be responsible for the financing, development, construction and maintenance of
  - (a) surface water management and control systems, potable water distribution, fire hydrants, and wastewater collection and transmission facilities. Upon completion and connection to the City's lines, certain potable water and sanitary sewer lines or systems constructed in a manner acceptable to City may be dedicated to the City, provided the City agrees to accept same and all necessary

access and maintenance easements are granted to the City;

(b) certain access roads; internal roads, offsite roadway improvements, including turn lanes, signalization, streetscape, and irrigation; (collectively, the “Public Infrastructure”). The proposed Public Infrastructure must be compatible with the City of West Palm Beach surface water management system, potable water system, parks and landscaping system, fire services, and the City and Department of Transportation roadway facilities.

10. The special assessments bonds proposed to be used to provide the capital to acquire the Districts’ Public Infrastructure is the best alternative available for delivering the Public Infrastructure and facilities to the area that will be served by the District.

11. The Public Infrastructure and services and facilities of the District will be compatible with the capacity and uses of existing City and regional community development services and facilities.

12. The area that will be served by the District is amendable to separate special district government.
